What is a guardian?

An educational guardian is an adult or a company in the UK that is appointed by a parent to be their representative whilst their child studies in the UK.

It is a legal requirement that international students under the age of 18 must have a UK based guardian whilst they are studying in the UK. This is to ensure the student's needs are met during times when the school is closed or in an emergency.

What guardianship options are available to you?

Parents often ask why they need a guardianship agency when they have a friend or business acquaintance who can act as the educational guardian for their child. It's important to weigh up the pros and cons to make an informed decision that's right for your family and meets the requirements of the school. A good guardianship arrangement will give parents peace of mind that your child will be well looked after whilst they are enjoying their UK boarding school experience.

Things to consider when appointing a family friend or business contact

Utilising a personal contact in the UK can seem a low cost and easy solution. The following points should be carefully considered before proceeding with this option:

- Are they located close to school and experienced to respond in an emergency 24/7?
- Are they always in the UK and available during term time?
- Are they able to accommodate your child when school is closed or when an unexpected requirement to leave school arises?
- Can they assist you with safe travel arrangements if required, and support if something goes wrong?
- Do they meet the stringent requirements of UK Visas and Immigration (UKVI)?
